

JCI World Congress 2023

Zürich, Switzerland

Why go to the World Congress?

A world congress by JCI, is truly something else. 3000-5000 young ambitious people come together for **trainings, workshops, keynotes, networking**, and of course to meet new people!

It doesn't often happen that an event of this scale comes to Europe, so grab the chance while it's there!

JCI Switzerland has a great track record of organising great events. Not only do they handle the logistics and everything practical very well, they also make sure to offer a fantastic program.
